

Building Christian character in children and exploring their intellectual capabilities by instilling basic biblical truth and imparting basic education principles that will enable them to excel with their education.

Ebenezer Update

Ebenezer Institute of Learning

JANUARY 2018

Although we have already opened Term 2 of the 2017/2018 academic year, we welcome you to our 9th year since Ebenezer was established in 2008. Enrolment has gone up to 369. The campus continues to grow with the Grade 3 -7 classes now occupying the new Block 7 and 8. Our gratitude goes to all those that have supported us over the years in spirit and financially.

We continue to provide food through the feeding scheme to children who cannot afford to bring food or who leave their home without breakfast.

THE RESILIENT SPIRIT OF ELLEN WERUZANI

The story of Ellen has been told over and over again, Now 15 years old. Ellen is in grade 7 and ready to sit for the Primary School Leaving certificate in May 2018. Growing up, Ellen has had to overcome challenges ranging from neglect from family, integrating into school and mobility due to her artificial legs which forced her to stay away from school several times. With the support of school, she is determined and now attend school frequently. Apart from Ebenezer, she also receives remedial support from the Chisomo Miral an organization which deals with people who are differently abled. Help us pray for Ellen as she strives towards achieving her independency through education.

VOLUNTEERS

Ebenezer is grateful for the commitment of Anna, Sophia and Kaye that has been shown throughout the term. Kaye will leave late January 2018 back to Scotland with her husband who also is currently in Nkhoma and volunteering at Nkhoma hospital. Anna and Sophia are the co-workers from Germany and are here till the end of this academic year.

NEW STAFF

As a growing institution, Ebenezer needs more staff to match with the responsibilities that needs to be done. Therefore, we are pleased to welcome new staff members to the team. They have already proven to be hardworking, creative and dedicative. Ebenezer is now proud to have Madalitso Chiumia as a bursar which is the first time in our school history. The bursar will help to manage funds from our sponsors with help by the Principal. We are also blessed to have recruited Innocent Jumpha and Gift Kaundama as teachers. They are well experienced and they work with enthusiasm.

GIFT

KINDERGARTENERS' VISIT TO THE HOSPITAL

As a Christian school, we don't only focus on academics when teaching our learners but we also teach them good morals and how to be responsible in a society. To put it into practice, our Kindergarteners were given a chance to go and visit sick children at the hospital which was monitored by teachers. To make it more delightful, gifts were wrapped and were given to the sick children on the day.

CLOSING DAY

On 15th December, 2017 was the last day of term 1 and we closed school. Since it was Christmas season, learners had to perform various activities as part of celebrating. Activities included face painting, play and Christmas carols. It was a memorable day and learners were very happy to close school on such a high note. Parents and Guardians came to share the joy with their children which made it more pleasant.

DAY AT EBENEZER

To put some variety into the lesson and to make them different, teachers come up with fun activities for their learners to perform. For example, building houses in Life Skills or making local guitars in Expressive Arts. In Pre-School, students also learn how to brush their teeth and how to take care of their bodies.

As we look towards second term of 2017-2018 school year, please spread the word about Ebenezer as we look for new sponsors and partners. For more information on the school you can find us:
